Backend · Node.js, Express.js, REST APIs, Authentication

Database & State · MongoDB, Context API, Local Storage, API Integration
CMS & Web Engineering · WordPress, WooCommerce, Responsive Development, Performance Optimization, Accessibility, Technical SEO

Tools & Deployment · Git, GitHub, npm, VS Code, Vercel, Netlify, Cloudflare, cPanel, DNS, SSL

PROFESSIONAL EXPERIENCE

Freelance Web Developer / WordPress Expert

Remote / International Clients

Developed professional business websites, ecommerce solutions, landing pages, and website redesigns for remote clients; delivered responsive, performance-focused solutions for individual business requirements. Independently managed projects from requirements through implementation and delivery, including migrations, integrations, maintenance, and troubleshooting; worked with clients through freelance platforms including Upwork and Fiverr.

WordPress Developer / Web Designer

U.S.-Based Digital Marketing Agency · Remote

Built, maintained, optimized, and supported production websites for business clients in a remote U.S.-based digital-agency environment; translated client and design requirements into responsive, functional, maintainable web experiences. Improved performance, responsiveness, accessibility, technical SEO implementation, forms, integrations, and overall website quality. Troubleshot WordPress, hosting, DNS, SSL, migration, and production website issues; managed ongoing updates, maintenance, and technical improvements across live client websites.

TRAINING

Full Stack Web Development · Programming Hero · 2026. Intensive full-stack web-development program covering JavaScript, React, Next.js, Node.js, Express, MongoDB, authentication, REST APIs, Git/GitHub, and problem-solving.
